Memorandum of Understanding

Dated the 14, March, 2023

Between

ICAR - National Research Centre for Banana, Tiruchirappalli, India

and

CARE college of Engineering, Tiruchirappalli, India

This memorandum of understanding between the ICAR - National Research Centre for Banana (ICAR-NRCB) and CARE College of Engineering, Tiruchirappalli (CARE), India is intended to facilitate a collaborative program of research and training, institutional development, information dissemination and exchange of faculty and students. The linkage hereby formed shall henceforth benefit / contribute each partner institution's objectives / mandate.

About ICAR - National Research Centre for Banana, Tiruchirappalli

The ICAR-NRCB (Second Party) was established on 21st August 1993 at Tiruchirappalli, Tamil Nadu under the aegis of Indian Council of Agricultural Research, New Delhi with an aim to augment the production and productivity of banana and plantain through

mission mode basic and strategic approaches. The major thrust areas of research include viz., banana improvement, production, post-harvest management and protection. ICAR-NRCB has a field gene bank consisting of 470 banana germplasms, well-equipped research laboratories for genetic resources management, crop improvement, molecular biology and biotechnology, tissue culture, nutrition, water management, soil and leaf nutrients, physiology and biochemistry, post-harvest technology, crop protection disciplines like entomology, nematology, plant pathology and virology and ABI and ITMU for business incubation, IPR, consultancy processing and technology commercialization and transfer.

The centre has international and national collaboration with institutes like Bioversity, France; Queensland University of Technology (Brisbane), Australia; CIRAD, Montpellier; France; KUL, Belgium; IITA, Nigeria, Cornell University, Ithaca, USA and TNAU, Coimbatore, BARC, Mumbai, NIT, Trichy besides carrying out consultancy services to all the stakeholders of banana.

About CARE College of Engineering, Tiruchirappalli

- The CARE College was established in the year 2009 as a technical campus approved by AICTE and affiliated to Anna University. The CARE College inculcates the value of life beyond curriculum and explores the full potential of the student's creativity in conducive learning environments.
- At Present CARE College offers Five Bachelor of Engineering courses and offers three post graduate programmes.
- CARE College believes that the most promising opportunities for discovery exist at the intersections of conventional disciplines, and creative emerging technologies which will evolve out of multidisciplinary exposure and partnerships. CARE College is committed to excellence in all its endeavors.
- CARE College complements this with a sound academic base which enables our students to get a head start in an increasingly complex world, thus preparing them for the global challenges of tomorrow.
- CARE College believes in partnerships between industry, government, and premier educational Institutions for a good exposure to students which may yield countless innovations. Our faculty value corporate partnerships for the insights they contribute as much as for the support they provide.

Vision of the Institution

- Transform lives through Education and Research

Mission of the Institution

- To impart quality education to students through critical thinking, creativity, leadership and the spirit of entrepreneurship

Values

- We develop in each member the ability and passion to work effectively for the betterment of humanity with cultural awareness, high ethical and moral values and a sense of social responsibility.

NOW THEREFORE, the **ICAR-NRCB** and **CARE**

Inspired by their common objectives to promote and accelerate the progress of research and product development in various disciplines of agricultural research have decided to enter into this MoU to promote cooperation in the field of agricultural IoT research and research/academic exchanges that are considered here to include but not limited to:

- Artificial intelligence-based precision farming tools and machineries for mechanization of agricultural operations in banana.
- Smart sensors and IoT enabled monitoring of banana harvest and export.
- Fine tuning and tools development for banana production to manage natural disasters like wind, heat and flooding.
- Application of bio-sensors and imaging technology for pest and pathogen detection / diagnosis, germplasm identification, seed sorting, etc.
- Post-harvest technology in banana-mechanization and cost-effective storage.
- Synthesis of composite materials from banana waste.
- Mobile Application based smart monitoring system
- Effective utilization of post harvest waste for engineering applications.

Whereas

A. Details of the implementation of any particular student exchange or faculty-related activity resulting from this memorandum of understanding shall be negotiated between the two (2) institutions as such specific case may arise and will be outlined in a supplementary student exchange agreement or faculty exchange agreement between the institutions. Supplementary

agreements are always subjected to availability of sufficient funds with the respective institutions.

B. This memorandum of agreement, the respective institutions' commitment to both research and academic exchanges as on the date of the memorandum of understanding. This memorandum of agreement may be amended or terminated at any time by either party provided that notice of termination or amendment in writing provided by the notifying party to the other party within thirty (30) days of the date on which the termination or the amendment is intended to become effective. Any amendment or termination shall not have an effect of any arrangement in place at the time that notice is provided, where the arrangement arises from any supplementary agreements resulting from this memorandum of understanding.

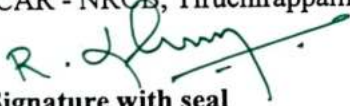

Both institutions subscribe to the policy of equal opportunity and will not discriminate on the basis of gender, age, disability, race, color, religion, marital status, veteran's status, national or ethnic origin or sexual orientation. The IPR issues involved will be decided on case by case basis.

This Memorandum of Understanding will become effective immediately. It shall continue in effect for a period of five (5) years and may be extended by mutual agreement.
