ACTIVITY DESCRIPTION

The training session for group discussions was held for fourth-year students to prepare them for placement rounds, ensuring they approach the process with confidence. Conducted by Mr. Mohamed Nizarudeen, the Placement Coordinator of the Computer Science and Engineering (CSE) department, the session took place on October 28, 2022, in Computer Lab 1. During the session, students actively participated and demonstrated cooperation, showcasing their skills. Mr. Nizarudeen shared valuable insights about group discussions, including protocols and essential facts. To tailor the training to individual communication and skill levels, students were organized into small groups. The interaction between students and the trainer was productive, with students posing questions and seeking clarification. This session not only facilitated a better understanding of group discussion dynamics but also equipped students with the confidence and knowledge necessary to excel in placement interviews, opening doors to excellent job opportunities for their promising career paths.

SESSION'S TAKE AWAY:

1. Objective of the Group discussion
2. How to grab the opportunity during the group discussion.
3. Industry Expectation.
4. How improve the communication
5. Perfect Self Introduction

ACTIVITY DESCRIPTION

The mock interview was held for fourth-year students on June 1, 2023, with Mr. Mohamed Nizarudeen, the Placement Coordinator of the Computer Science and Engineering (CSE) department, conducted the session. This simulated interview was strategically scheduled following comprehensive training provided to equip students with the skills needed to excel. The mock interview comprised multiple rounds, including an Online Written test and an Online Group Discussion. Students actively participated, expressing their perspectives on interview preparation. These training sessions, organized by the college, aimed to alleviate students' apprehensions about interviews, offering insights into job requirements and aiding them in preparing for a successful job placement.

SESSION'S TAKE AWAY:

1. Skill Development
2. Confidence Building
3. Identifying Weaknesses
4. Familiarity with the Process
5. Time Management
6. Enhancing Communication Skills

Report on Career Guidance Program “A Resume-building activity for an impending Job scenario”

Venue: CAD/CAM Lab

Date: 28.02.2023

Time: 3.30 Pm TO 5.00 Pm

The Programme was organized by the Department of Mechanical Engineering of CARE College of Engineering and coordinated by Dr.D.R.Rajkumar, HoD/Mech & Mr.M.Anthony Kingston, AP/Mech. About 50 students of II & III Year Mechanical participated in the career Guidance Program “A Resume-building activity for an impending Job scenario”. Dr.D.R.Rajkumar delivered the welcome address. In addition to emphasizing the value of resume building, Internal resource person and HoD/ Mechanical Dr. D. R. Rajkumar described the numerous prospects present in the engineering industries. Moreover, he insisted that the students should gain the knowledge and skills required to build and update a resume in addition to how different sectors anticipate resumes from employees. Mr. M. Anthony Kingston, an internal resource, provided an explanation of the procedure by which the resume model was to be created. The students are provided with a clarification of the keywords for the objective, Skills (Communication and technical). Students are encouraged to improve their technical and communication abilities in order to secure a decent employment offer from businesses in a variety of core and Technology sectors. Vote of Thanks was delivered by Mr. M. Anthony Kingston.

ONE DAY WORKSHOP ON RESUME BUILDING & INTERVIEW SKILLS

GUEST:

Mr. CHARLES P, Director & Founder at Kaarlo Training & Hr Solutions Pvt. Ltd

ABOUT THE PROGRAM:

Department of MBA has organized One Day Workshop on Resume Building and Interview Skills” on 11/10/2022 for II year MBA students (40) presented by Mr. Charles P, Director & founder at Kaarlo Training & HR Solutions Pvt Ltd, was the resource person.

OBJECTIVE:

The simpler You Say it; The More Eloquent it is. There’s a great power in words, if you don’t hitch too many of them together. Resume Building & interview skills was the most valuable of all talents, hence the art of resume writing was a mandatory tool for placement goers.

OUTCOMES:

According to a large eye-tracking study of recruiters, your resume isn’t an autobiography, it’s your chance to prove who oneself is, in 6 seconds, hat you’d be a great fit for a given role. This workshop gave immense knowledge about that art and get to well versed in that.

Advanced Problem Solving in Python

(08 –Feb 2023 to 14-Feb 2023)

REPORT

Respected Sir,

We the department of AD has successfully conducted 6 day training program on “Advanced Problem Solving using Python Programming” , for II year students. The program was from 8/2/2023 to 14/2/2023. The resource persons were Mr.Ramanamurthy Sarapalli, and Mr.Rajhan from Code Tantra, Tech Solutions, Pvt. Ltd,. Before the training program, the codetantra created the credential details for each student to use their platform.

For the first two days the forenoon session included the discussion about basic concepts in python and for those days, the afternoon session included the its (FN session)coding part of the concepts discussed. Next four days in the FN session, OOP’s concept was handled. For the same four days, the (AN session) included the python coding using OOP’s. For all the 6 days students did there coding part for 3hrs in the afternoon, the assignment/test was also given to the students for another 3hrs in the evening. Totally the students were engaged in coding using python for 6hours per day. Using the platform the students have been monitored about their coding completion status and their assessment.

The summary sheet generated using the platform was discussed among students and time was given to complete the entire test. Once the all test were completed, codetantra will issue the course certificate to the students. The deadline line to complete the course test is within 4th March 2023. In the last day AN session, live hackathon was conducted for 3hrs and the session went with full excitement about who will be in the first position. Mr.Arvindsamay and his

team have won the first prize with 71 marks, Ms.Sumitra and her team won the second prize with 53 marks. Each student gave the feedback using Google form, the feedback was excellent. The platform can be utilized by the students for 6 months and using the same platform the faculty can also conduct coding test/competitions.

On behalf of our department I thank the students for their utmost cooperation for the training program. The outcome of the program has been visualized by themselves with their assessment marks and through live hackathon.

We are thankful to the CEO, the Principal, and to the Dean for initiating and supporting us to carry out the training program successfully. The training program follow-up will be done by Mrs.S.Nageswari, to make the students fully benefited by the course using the platform. We hope such programs will be done in future also.

REPORT ON WINTER WORKSHOP 2022-23

Title	: COMPUTER AIDED DESIGN
Date	: 05-01-2023 to 07-01-2023
Time	: 09:00am to 04:30pm (4 sessions)
Venue	: CAD/CAM Lab
Coordinator	: Mr. C. S. Murali, AP/Civil
Participants	: III-year – 18 Students (Batch 2020-24)

IDENTIFICATION OF TOPIC:

On the event of winter workshop for the III-year Students of B.E., Civil Engineering Department in the academic year 2022-23, the “Computer Aided Design” course was planned. With the prerequisites of Construction Techniques and Practices and Design of Reinforced Concrete subjects being completed by the students on their previous semesters, its obviously the most appropriate time for the students to get trained in Computer Aided Design.

As per the Anna University regulations, the Computer Aided Building Design is included in the syllabus on the second semester where the students could gain the basic knowledge on drafting in the online classes. However, to provide a hands-on experience to the students on the CAD software, this workshop was scheduled for three days from 05-01-2023 to 07-01-2023 from 9am to 4:30pm with 4 sessions daily. The event was coordinated by Mr. C. S. Murali, Assistant Professor of the Department of Civil Engineering of our CARE College of Engineering, Trichy.

OBJECTIVES:

Upon completing this workshop, the students will be able to:

- Understand the basics of drafting and detailing
- Know the CAD user Interface and its workspaces
- Visualise the projected 2D views of a 3D object and vice versa
- Propose ideas for building plans in line sketch
- Draft the line sketch in CAD software with the necessary annotations and layer definitions.

DAY 1: BASICS OF DRAFTING AND CAD COMMANDS

The workshop began with a detailed overview of the basics, prerequisites, and the process of drafting which the students would have learned from online classes in their second semester. The students were able to brush up the basics and learn the commands of the AutoCAD software.

The User Interface of the AutoCAD software and the process of beginning drafting with the drawing and editing commands were taught to the students and they were able to replicate any shape of their preference in the CAD workspace.

DAY 2: 2D-3D PROJECTION AND LINE SKETCH

The projection of figures from two dimension to three dimension and vice versa was learnt by the students in the Engineering Graphics subject in hand sketch method and the same was replicated in the CAD software including various shapes such as rectangle, circle and arcs.

The importance of annotation, labelling and dimension marking were learnt by the students and the same was reproduced in the CAD drawings.

In the afternoon session, the students were made to hand sketch a plan of their home with proper aspect ratio and dimensioning parameters.

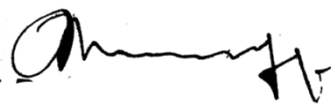

DAY 3: HANDS ON DRAFTING OF HOUSE PLAN IN CAD SOFTWARE

On the final day for assessing the learning of the students, the hand sketch of the house plan drawn by the students was made to be drafted in the CAD software.

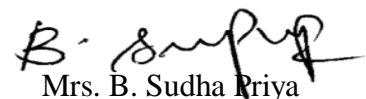

The drafting process involved placing the architectural elements, joineries, annotation, and dimensioning in proper unit style. The various doubts of students were clarified along the drafting process and the outputs were assessed with proper comments. The comments were addressed by the students in the revised drawing, and they were submitted upon completion.

CONCLUSION

The three-day workshop came to an end with the submission of the drafted plans as cad plans and feedbacks were collected from the students. The workshop came out to be a grand success among the students and it framed a strong foundation for the next step of analysing and designing a structure which would be covered as Value added course for the students.

Report

Department of CSE organized a Value Added Training on "PYTHON CODING" for our II year CSE students from 06.02.2023 to 11.02.2023. This program is aimed to create interest in python programming and to improve the coding ability in Python and to know the importance of test cases. **Mr. J. SARAVANA KUMAR, Trainer, Talent 64 Technologies, Chennai**, has been identified as resource person for this value-added course. Based on above requirements, Syllabus was framed and schedule was finalized with HoD, Dean and Principal.

The course was conducted and completed along with Hands-on session as per plan in CSE LAB 1. Students were provided with different set of problems for each topic and they were made solved in Lab sessions.

At the end of course, feed-back was received from students. Students were assessed by online assessment test. Simple projects were identified and assigned to students. Those projects are under progress.

All details regarding value added course are attached.

SCORE BOARD FOR SOLVING THE PROBLEMS WITH HACKER RANKER

The screenshot shows the HackerRank dashboard for a user named 'nithyasri.g'. The page is titled 'Prepare' and features a navigation bar with 'PREPARE', 'CERTIFY', and 'COMPETE' options. The main content area is divided into several sections:

- Your Preparation:** This section contains two cards. The first card is for 'Problem Solving', showing a progress of 10% (90 points to next star) and a 'Continue Preparation' button. The second card is for 'Python', showing a progress of 8% (165 points to gold badge) and a 'Continue Preparation' button.
- Preparation Kits:** This section offers two kits: a '1 Week Preparation Kit' (Challenges: 21, Attempts: 544403, Mock Tests: 6) and a '1 Month Preparation Kit' (Challenges: 84, Attempts: 248148, Mock Tests: 4).
- Prepare By Topics:** This section lists various topics including Algorithms, Data Structures, Mathematics, Artificial Intelligence, C, and C++.

The dashboard also includes a search bar, a notification bell, and a user profile icon. The Windows taskbar at the bottom shows the time as 10:02 AM on 2/18/2023.

This is a duplicate of the screenshot above, showing the same HackerRank dashboard interface. It displays the user's preparation progress for 'Problem Solving' (10% to next star) and 'Python' (8% to gold badge), along with preparation kits and a list of topics to study. The interface includes a search bar, navigation options, and a Windows taskbar at the bottom.

VALUE ADDED TRAINING

[AUGMENTED REALITY –VIRTUAL REALITY]

(2022 – 2023 EVEN SEM)

Report

Department of CSE organized a Value Added Training on “Augmented reality –virtual reality” for our III year CSE students on 10.03.2023 and 03.05.2023.

This program is aimed to create interest in Augmented reality and virtual reality and to improve the virtualization concepts and train the students to create interest in Artificial intelligence Dr.B.Ezhilavan founder & CEO, VEI TECHNOLOGIES PVT.LTD, Chennai been identified as resource person for this value-added course.

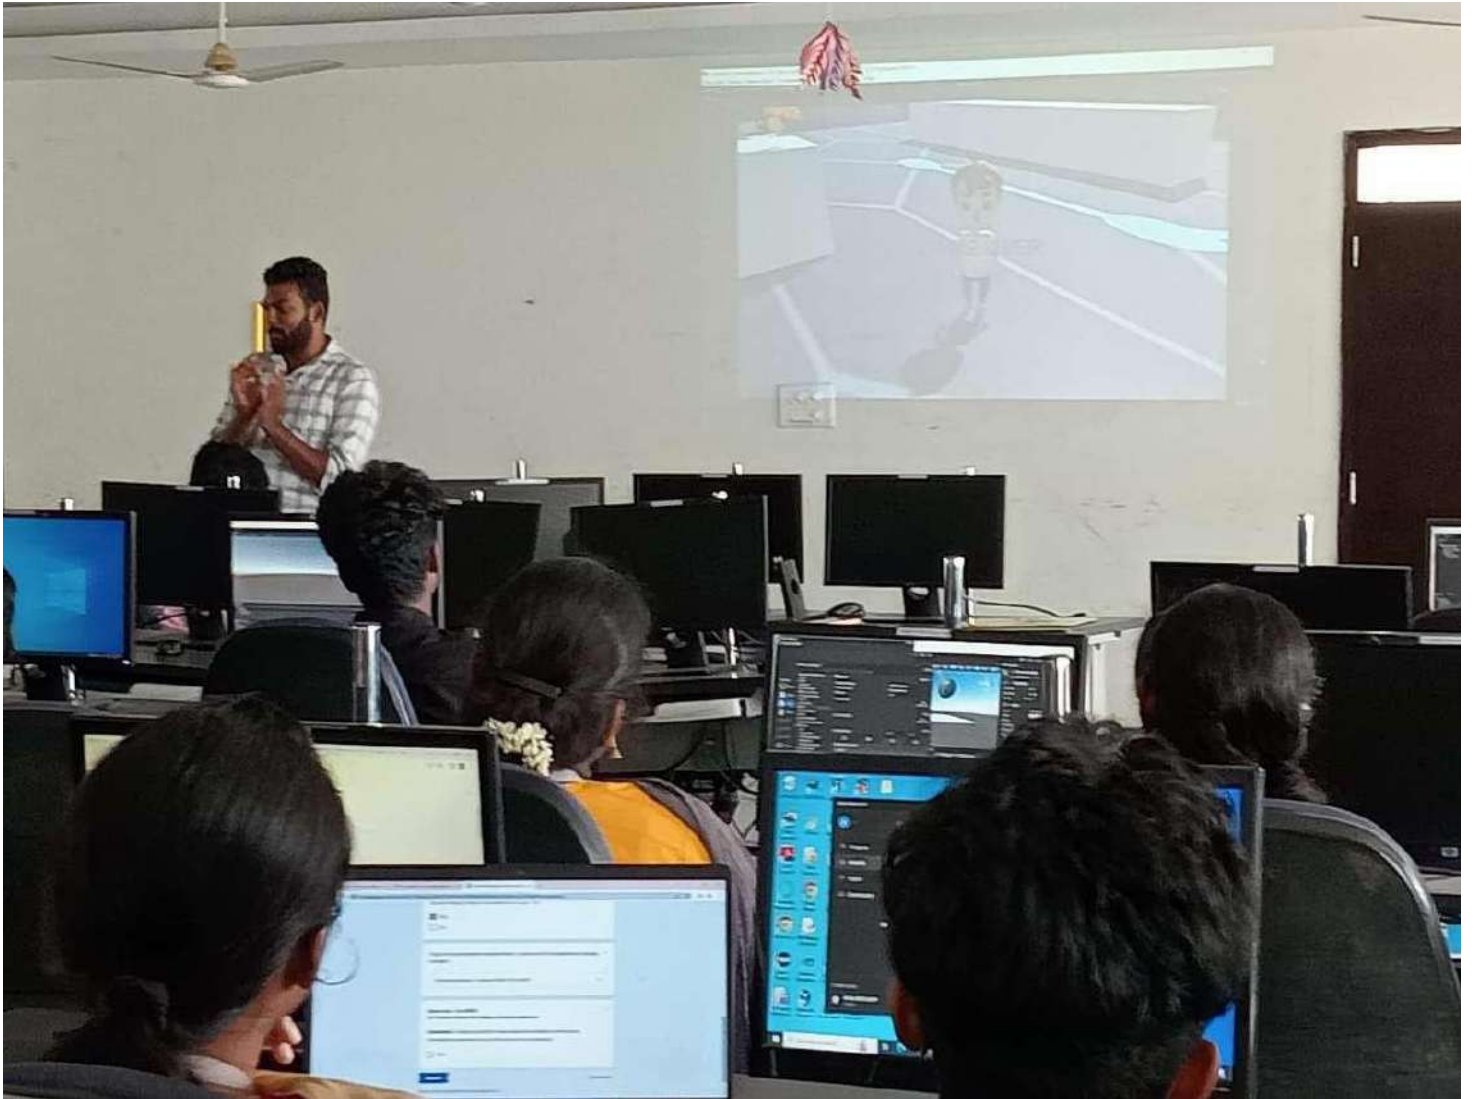

Based on above requirements, Syllabus was framed and schedule was finalized with HoD, Dean and Principal. The course was conducted and completed along with Hands-on session as per plan in CSE LAB 1. Students were provided with different set of problems for each topic and they were made solved in Lab sessions.

At the end of course, feed-back was received from students. Students were assessed by online assessment test. Simple projects were identified and assigned to students. Those projects are under progress. All details regarding value added course are attached.

VALUE ADDED COURSE

[Foundations of Programming and Problem Solving]

(2022 – 2023 ODD SEM)

Report

Department of CSE have organized a value added course “**Foundations of Programming and Problem Solving**” for our III year CSE, AD students and IV CSE students. This program is aimed to create interest in software programming and to improve the coding ability in different languages (C, C++, Java and Python) and to know the importance of test cases. **Dr. AnandkumarPrakasam, Root – IT learning Centre Research Consultancy, Trichy**, has been identified as resource person for this value added course. Based on above requirements, Syllabus was framed and schedule was finalized with HoD and Principal.

The course was conducted and completed along with Hands-on session as per plan in CSE LAB 1. Students were provided with 8 different set of questions for each topics and they were made practiced in Lab sessions.

Introduction about Test cases was given to IV year students and sample test cases were explained and practiced.

At the end of course, feed-backwas received from students. Students were assessed by online assessment test. Simple projects were identified and assigned to students. Those projects are under progress.

All details regarding value added course are attached.
